

## ATTENTION TO DETAILS

**Q1.** Traffic defaulters' list has been put up by the Traffic Control Office. Car owners who have got pollution check done on their cars have been marked with "0" and others who have not, have been marked with "1". The officials decided to levy extra fine for defaulters who have to currently pay a fine of Rs 1500 or more as per the list and who also haven't got pollution check done on their cars. How many car owners will have to pay the extra fine?

| Car Registration Number | Fine to be Paid(Rs) | Pollution check |
|-------------------------|---------------------|-----------------|

**Q3.** An assessment company has used a new format to track the ability of 6 of its clients in four skills. In the format for skills there are levels 1 through 4 starting with a full blue square, given a score of 1, indicates outstanding; 3 blue squares, given a score of 2, indicates above average; 2 blue squares, given a score of 3, indicates average; 1 blue square, given a score of 4, indicates below average and blank white square, given a score of 5, indicates poor. Which of the following skills has the minimum number of 'below average' performers?

| NAME/ SKILL | Verbal                                                                            | Listening                                                                         | Writing                                                                           | Functional                                                                        |
